DR. WARREN'S
Sarsaparilla, Tomato and Wild Cherry PHYSICAL BITTERS,
At 50 Cents per Bottle!

SARSAPARILLA, TOMATO and WILD CHERRY BITTERS have now become a standard medicine universally approved by physicians as a safe, speedy and effectual remedy for *Scrofulous Mercurial and Cutaneous Diseases*, Jaundice Indigestion, Dyspepsia, Bilious Disorders Liver Complaints, Costiveness, Weak and Sore Stomach, Dizziness and Ringing Sores, Swelling of the Limbs, Pain in the Bones, Tumors in the Throat Rheumatic Affections Salt Rheum Erysipelas Bad Humors Eruptions on the face or body Cancerous Sores, King's Evil Chronic Catarrh, Languor, Debility Headache Dyspepsia, Sallow Complexion, and all those disorders which arise from the abuse of Mercury, or from an impure taint in the blood, no matter how acquired

The extract here presented is prepared after directions given by the celebrated Dr Warren, whose name it bears, and will be found superior to any preparation of the kind now in use It is highly concentrated on purely vegetable, and very finely flavored to the taste The change which it produces in the condition and tendency of the system is *speedy and permanent*.

As a Spring Medicine for purifying the blood—strengthening the stomach and body—and checking all consumptive habits—the Sarsaparilla Tomato and Wild Cherry Bitters are entirely unrivalled

COMPOUND SYRUP OF Sarsaparilla and Pipsissewa,

Prepared only by

ALBERT EMERSON,
DRUGGIST AND APOTHECARY
Apothecaries' Hall, 4 Smith's Block,
BANGOR

THIS article is confidently recommended as a cure for all diseases arising from an impure state of the Blood such as *Scrofula Salt Rheum Syphilitic and Mercurial Diseases Ulcerous Sores Pimples and Diseases of the Skin &c &c* This Syrup is highly approved by the Medical Faculty and is recommended as an internal remedy to be for the purpose of the Extract, or as some would express the same it is to purify and renovate the system in all those startling diseases where the fluids of the body have become vitiated

I possess (the *Cimicifuga Cynthiata or Pyola Cuneifolia* as it is variously called by Botanists) was first employed medicinally by the Aborigines of America and was first introduced to the notice of the medical profession in 1803 by the late eminent Physician Dr S L Mitchell of New York Dr Peters of London, says that it is an alterative in Scrofula and in other chronic diseases—it is generally supposed to possess almost a specific power, and Dr Harris of Ohio a practitioner who relies wholly for success upon Pipsissewa by which he is enabled to cure Scrofula, in its worst forms"

When taken into the stomach it acts as a tonic, producing an agreeable sensation and assisting the appetite and digestive process it promotes the action of the secreting organs more especially the Kidneys over which, indeed it appears to exercise a specific influence In order to insure essentially the benefit derived from Sarsaparilla, we have most admirably combined the Pipsissewa with it so that its tonic and diuretic qualities will operate really promote the good effects of Sarsaparilla

TO THE AFFLICTED

DR DOUGLASS respectfully informs the citizens of Boston that he may be consulted as to all diseases incident to the human frame, at his office,

No. 55 Union Street.

Dr D has been in extensive practice in all parts of the United States, and has now in his possession the best of evidence to show that he is a regular M D He has been upwards of 40 years in practice The diseases of females will receive the Doctor particular attention He will tell all the diseases from an exam nation of the eye this is an advantage that Dr D has above all other practitioners, and which will necessarily do away the necessity of a long and unpleasant explanation on the part of the patient of the disease with which they are afflicted The age and length of time the patient has been suffering, is all the Dr will require to give them a most thorough knowledge of their complaint and whether or not a cure can be effected

Dr D has been very successful in the treatment of Colds, Coughs Consumptions and Liver Complaints, all Pulmonary diseases, Scrofula Rheumatism Fits, Dysentary all diseases of the Eye and Ear, diseases of the Blood Palpitation of the Heart Goat, Salt Rheum Cancers, cutaneous diseases and all affections of the kidneys and bladder, Incontinence, Hernia, Abdominal Weakness Tooth ache Intemperance, Stammering &c Dr D warrants a cure of any of the above diseases, if applied to in season

He would also respectfully inform the Ladies that he will attend to their diseases and complaints from 8 to 12 AM and from 2 to 9 P M A full and general assortment of medicines are kept constantly on hand Printed directions accompany each bottle or package

DR. CUMMINGS'S Compound Extract of Sarsaparilla and Dock.

THE articles at once named are the principal ingredients of this medicine With these others of vegetable origin are combined designed to reder them more active, and consequently more immediately effective

The Dock or rather a species of it now ranks as a medicinal plant second to no one of the vegetable kingdom With the aid of a distinguished chemist whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and I presently satisfied that they possess the properties which have been ascribed to them Regards his discovery the idea of uniting them which have never been alloyed in the produce no of the compound In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess

A larger portion of Sarsaparilla is solid than has generally been supposed The extract used in the manufacture is prepared by subjecting the root to the action of the menstrua usually employed in extracting its virtue for a long time without heat or any other accelerating agent None is permitted to be used in the compound that has been obtained by the process and that has been less than a year in preparation

The Compound is recommended for Scrofulous Erysipelas Ulcerous affections Eruptions and Mercurial diseases The effects of the numerous maladies arising from sedentary employments occupations of a hurrying & distracting nature intemperate application, exposure to extremes of heat and cold over-taking the physical powers or other abuses of the constitution among which are Neural or Liver Affections of the Liver Bilious Complaints and Dyspepsia or Indigestion

Indisposed of warm climates with which the proprietor has become familiar in his practice in Havana some of its virtues in the cure of Bilious particularly efficacious, both as a remedy and preventive

It has heretofore been known in this city where the proprietor has prepared nearly half a century of his professional life It was extensively prescribed by him while in practice and it is believed to be known with his medical brethren in general, to whom he is known

Prepared only by Dr Stephen Cummings and sold at wholesale and retail by Isaiah Bragin & Co No 133 Middle street and Edward Mann No 150 Middle street—only agents for Portland

NEW AND Important Discovery

GRAY HAIR can be restored to its natural color and Baldness cured in most cases by the use of Prof Wood's Hair Restorative This preparation is entirely vegetable and contains no mineral or poisonous drug whatever, but is composed entirely of such ingredients as will produce the desired effect in a manner perfectly natural and healthy Those who have used it in their families for the last two years, have found it to do all that is represented, and more than can be expected from any preparation of the kind Those who have used other preparations for the hair, and have had their hair turned green, or otherwise colored by them, will find this entirely free from any coloring matter, and will restore the hair to its original color, without leaving it harsh and dry, as most preparations do

Those who are troubled with dandruff, or scurf on the head, will find this article the best they can use, as it will entirely remove it, and leave the hair soft and glossy

Those who are troubled with the hair falling off, will find this the best article they can use, as it will prevent the hair from falling out in all cases where the roots are not entirely destroyed

Those who are troubled with baldness, will find this the best article they can use, as it will cause a new growth of hair to spring up, in most cases, where the roots are not entirely destroyed

Those who are troubled with Salt Rheum, Scald Head, Pimples on the face, or any cutaneous eruptions, will find this the best article they can use, as it will remove them in a short time

Those who are troubled with Dandruff, Scurf, Baldness, Gray Hair,

Zachary Taylor.

The more the character of Gen Taylor is studied and the better it is known by the people the more do they desire a succession to the high office of President In courage and firmness, and in zeal in his friendships, Zachary Taylor has a superior He is declared by those who best know him to be mild, merciful and forgiving and to have no resentments of his own He strikes no blow but from the impulse of duty—and duty fulfilled, he mingles his tears with those of his victims—and returns them green for green With him, 'Glory's a glorious war has smoothed his wrinkled front' With his companions in arms he is the plain, blunt, unassuming soldier, who relies for his distinction upon his actions—rather than his commission—and always exhibits the superiority of moral over mere physical power His civil accomplishments are so blended and mixed up with his military prowess, that he affords a most striking if not unparalled specimen of the true citizen soldier—one who might securely be translated from the head of the army to the need of the government, or to the ranks of civil community with no other change than that of apparel He has all Jackson's determination, with a thousand times his prudence—all his generosity with none of his prejudices! His hands dote upon him—his enemies or rather the enemies of his still unconquered, yet becoming, nations, an elasticity and expansiveness of strength and ability equal to all emergencies

Sternness may be assumed by him when it becomes necessary, and it dwells with the necessity His goodness equals his greatness, and his modesty is inferior to neither

His claims to the Presidency do not rest upon mere military qualifications, but upon moral and mental worth without which a soldier is a scourge but with which, he comes trebly recommended to the proudest office in the gift of an applauding and grateful people—the Presidency of the United States

Academy of Music and Dancing

Messrs Knights & Streeter have fitted up a Hall on Main street for the purpose of giving instruction to the children and youth of our city in vocal and instrumental music and in dancing These gentlemen have come among us for the purpose of establishing here a popular, well ordered academy, in which as competent professors of the science and practice of music and of the graces and laws of dancing they will devote themselves to the service of our citizens They are not strangers A rough ocean this city of over a year has caused many prejudices, and petty jealousies on their first coming here, to pass away and served to establish for them a reputation well deserved by the high recommendations which they brought with them from men in New York and Boston who knew the men and were well acquainted with their acquirements, and their ability to teach to others what they are well themselves understand

Mr Knights received his professional education under the best instructors in New York only from whom he received an honorable diploma Mr Streeter has been associated with the most worthy and accomplished musical societies in Boston where he maintained a good reputation as a scientific and practical musician

Such are some of the facts connected with the permanent establishment of the academy to which we would direct the public attention—This academy we have no doubt will be the medium of communicating real musical information to the rising generation in our city, and in this we shall rejoice, and as to the matter of the graces of dancing we should like very well for every human being to know how to dance and how to use the art as a means of exercise, and of innocent and social amusement We are all too iron sided and stiff and unsocial and plodding, to be either healthful, beautiful, social or happy ourselves, or as promotive of these in others as we might and ought to be.

☞The Eastern Argus appears in a new suit of type which has vastly improved its outer man The occasion is improved by the editor to glory over its smartness and influence when it was in its babyhood This is unfortunate as it too painfully suggests to its readers how much it has lost in its old age If rich and able to wear good clothes and make a good external appearance, but its inner life does not deserve such to be devoted to just political principles, and zealous for promoting the welfare of the country, and the happiness of the people Party makes it fat and easy, and that it prefers to serve rather than serve the country.

The Louisville Courier mentions the shipment of 1,000 barrels of lard from that place for Liverpool.

What his immediate Neighbors say.

On the 9th ult, the friends of Gen Taylor in Detroit, Michigan, (the town in which Gen Cass resides) had a large meeting Several gentlemen who have up to this time acted with the democratic party took part in the meeting among them John Norvell late U S Senator, and now U S District Attorney of Michigan One of the speakers was Ex Senator Woodbridge, who bore testimony to the good qualities of Gen Cass as a private citizen, but commented with unsparing severity on his whiffling propensities, and instability of purpose on questions of public concernment, as the annexed extract from the speech will show The statements of Mr Woodbridge are entitled to more than ordinary consideration, for two reasons the first is, that he has a national reputation as a man of integrity, and the other, that he made his declarations right in the hearing of Gen Cass and in hearing of his daily associates, so that if he had misstated in the least they were on the spot to correct him Mr Woodbury says that in the beginning Gen Cass was opposed to the annexation of Texas, and also that he "WAS AN EARNEST ADVOCATE OF THE WILMOT PROVISO" on all the other general questions of public policy

Extracts from Mr Woodbridge's speech

What, for example, have been Gen Cass' views relative to the encouragement of Domestic manufactures and the home industry of the country? Now I have known him an ever zealous advocate for the protection of home manufactures and American Industry Not even Mr Jefferson, who desired that the Atlantic had been a sea of fire that we might be utterly cut off from the work shops and pauper labor of Europe, was a more ultra protectionist' But Democracy is progressive, and I have since known him participating in all the 'anti tariff notions of the South' His 'free trade speeches previous to the election in 1844, are not forgotten, and his veto, with the aid of the Texas Senators, repealed the tariff of 1844

I have known him in favor of the National Roads and Lake Harbors He earnestly and ably sustained the policy of the Senate But his recent demonstrations and especially his full and unqualified approval of the whole of the Polk administration and of the 'Democratic Platform,' imply his entire abandonment of the Lake Harbor policy And his explicit adoption of the avowed principles of the Baltimore Convention, as the acknowledged articles of his present political faith, seems to leave him no retreat.

Again, there is no proposition perhaps, in respect to which the people of Michigan, are in opinion more united, than in this, that the extension of slavery, and the increase of slave power is adverse to the prosperity of the Union,—and in an especial manner, adverse to the rights, and injurious to the interests of the non slave holding States

While, as a body they would be true to all the stipulations of the Constitution, and faithful to the 'compromises' involved in it, they are, and (except when the effervescence of party interest may for some short space of time have overclouded their understandings) always have been decidedly opposed to the application of those peculiar stipulations to newly acquired States or Countries not or grossly parties to those compromises

Now I suppose it to be a matter of notoriety here in Detroit, that in the beginning, Gen Cass was opposed to the annexation of Texas—and in like manner opposed to all further extension of our national limits in the South west

But shortly afterwards he appears the decided advocate of that fatal measure, and of the Mexican war, and of stripping that miserable Republic of still more of her territory

Contrary to all this conduct, the Michigan Legislature in such an event to repeal, in theory as to the Ordinance of 1787, that involuntary slavery—except for crime committed—should be for ever inhibited in it, and General Cass was an earnest advocate for the Wilmot Proviso

Since then he is opposed to that Proviso

☞We were very much surprised to learn a few days since, that a report has been very industriously circulated about the country, prejudicial to the reputation of the steamer Governor as a safe and comfortable boat Such reports are without the slightest foundation We have the best means of knowing that she is safe and sound comfortable and well managed, and navigated with great skill Until Wednesday of this week, when she was detained on account of the gale in Boston, she has not varied during her trips on her present route, over two hours and a half in her time of arriving in the city This regularity, in storm or sunshine, a gale or calm, cannot happen with a weak or leaky, or badly managed boat But aside from this, we have ourselves made passages in this boat and so has the senior member of our firm—we have repeatedly talked with passengers who came in her during her roughest passages, and we all agree as to her excellent qualities as a sea boat

Our only object in penning these lines is to correct the false statements which have been made

☞We have received from the publisher J H Bryant, a copy of a spirited political paper published in Philadelphia, entitled 'Taylor Platform It labors with zeal in the cause of the country, of freedom, and of good government, by sustaining with signal ability the numerous claims which Zachary Taylor has upon the people, and unfolding to all the wise, conservative and just principles upon which he will administer the government

☞The Portland papers state that the Steamer State of Maine, on Saturday last, broke her shaft and was towed to this city This is all wrong After the arrival here on Saturday, of the State of Maine, a crack was discovered in her piston rod, and instead of running the slightest risk, by starting with this rod, although it might have held, it was thought best to have her remain here, and put in a new one which was here for the purpose

Day of Election.

The following is an act of Congress directing the day on which the Presidential election is to be made Of course, it takes place on the 7th of November

That the electors of President and Vice President shall be appointed in each State on the Tuesday next after the first Monday in the month of November of the year in which they are appointed.

Provided, That each State may by law provide for the filling of any vacancy which may occur in its college of electors when such college meets to give its electoral vote And provided also, When any State shall have held an election or the purpose of choosing electors, and shall fail to make a choice on the day aforesaid, then the election may be appointed on a subsequent day, in such manner as the State shall by law provide.

"The crews of the Ann Eliza and Brittannia were taken from their perilous situation, by the persevering and humane exertions of Mr T J Greenwood, the keeper of the Lights, aided by Mr B L Wilcomb, and seven or twelve others of Ipswich

The British schooner Skip Jack, Derling, from Nova Scotia for Boston, with a cargo of wood, went ashore about four o'clock Tuesday morning, on Plumb Island, nearly opposite the Half Way House kept by Mr Wood

The crew went below until daylight as the sea was constantly breaking over her At daylight they succeeded in getting on shore The vessel will probably be got off About half the deck load has been saved on the beach The Captain was seven hours endeavoring to keep off shore, inside of Cape Ann, and would have succeeded had not his sails split

A fore and aft schooner was driven in close to the edge of the breakers, but as the gale abated succeeded in getting off, and at sunset was apparently doing well

The Musical Library

We have occasionally, never regularly, received copies of musical publications by John W Moore, at Bellows Falls, Vt The copies we have received have given us much pleasure We have before us a copy of the Musical Library, the first number of a new series, devoted to the literature of music as well as to its science, and to supplying the public with popular sheet music It is designed to be a defining Preceptor—a Theoretical and Practical Key to Music, explaining the Theory of sounds and the law of harmony Its pages are of the size of sheet music, and eight of them will be filled with highly valuable reading matter and four pages of sheet music will be issued with each number It is published twice a month at two dollars a year This is just such a work as should be generally circulated in all families and schools in which music is cultivated

Zoological Curiosity.

The Presse gives the following account of a young ourang-outang, which has just arrived in France, and been added to the collection in the Jardin des Plantes The animal is only six months old, but presents in appearance the aspect of a serious and meditative child of three years of age He makes none of those jerking movements, or contortions of countenance, which are so characteristic of the "ape" species, nor is that absence of sustained attention, so common to monkeys, in any way remarkable. He is calm—may almost affectionate, and gives the keepers that pass by his cage the most hearty shakes of the hand, with the same air of semi-solemnity that would be assumed by an old Arab His diet is very recherche, consisting of chocolate, roast-meat, wine, and even liqueurs

As he comes from a very hot climate, the greatest precautions are adopted for the exclusion of cold, and the little creature is accordingly put into bed with a large cat and a very shaggy dog, all three animals being covered up with a thick mantle of wool During the day the young outang is clothed in a red blouse, after the fashion of the "Greek" design of the captains of the empire, and white pantaloons.

[From the London Ladies' Illustrated Newspaper]

GENERAL TAYLOR,

CANDIDATE FOR THE PRESIDENTSHIP OF THE UNITED STATES

ZACHARY TAYLOR was born in Orange county Virginia on the 24th of November 1786, upon the soil which in the words of John Randolph is "fertile in presidential candidates" When he was but a few months old his father Col Richard Taylor, who had distinguished himself in the war of the revolution migrated with his family to Kentucky He was one of the early pioneers

But ten years before, for the first time had the habitation of the white man been seen any where in the vast territory between the western boundary of Virginia and the far distant Mississippi With his rifle, even at the time of Col Taylor's arrival the enterprising settler was compelled to dispute with the Indian and the beasts of prey his title to the soil There was a great deal of useful though rough discipline in the hardships of a border life—The dangers to which the inhabitants were continually exposed gave them self possession, a readiness for emergencies, and a contempt of peril admirably adapted to success in any ortant undertakings All the intellect was brought into play sharpened, and fitted for action

It is a somewhat singular coincidence in the lives of Daniel Webster and Zachary Taylor—one the greatest statesman, the other the greatest soldier of the country—that their early youth should have been passed under such similar circumstances—The log cabin in which Mr Webster was born was on the remote frontiers of New Hampshire No smoke rose north of this side of Montreal His father, a soldier, too in the revolutionary army cultivated, when not engaged in the defence of his country, a small farm for his own family subsistence He was obliged to carry to the field his rifle no less than his hoe or axe the for, till after the war of the revolution the inhabitants of the frontiers toward Canada were often exposed to the predatory and murderous excursions of the Indian For both of the now eminent men we speak of this school, severe as it was afforded no ordinary instruction They strove the harder against circumstances seemingly adverse They grew up superior—the one in arms, the other in council And such was the early training of either such the character and discipline of their minds and the nature of their pursuits that their destinies might have been reversed by controlling circumstances the soldier and statesman have changed parts and become equally distinguished in relations the opposite of the present The trophies of Wellington might have been Websters—the glory of Channing, Taylors Both of these men when young, were accustomed to hard manual labor—to dig their fathers in tilling the soil This early exposure to the severity and vicissitudes of the weather hardy habits and income y fare laid the foundation of constitutions vigorous and even now unimpaired at the age of sixty two years.

Both attended school a few months when ever a school however distant was accessible and in summer worked on the farm During his youth Taylor the adventures of the school-boy seemed somewhat foreshadowed his future life On one occasion, an Indian in the British uniform was shot in his immediate vicinity, and a schoolmate or rather predecessor of his at school gained a brilliant reputation among his associates from having started four Indians near the schoolhouse and successively shot them all in a running fight This spot on Whetsel Fork, became afterwards historical in the art of war to Taylor—the Phœnix of the American Achilles His recitals and his example undoubtedly exercised a controlling influence upon young Taylor's dietic disposition and made him long to follow to the field some warlike lord" Nor was the favorite study of young Taylor otherwise than encouraging to the formation of a military taste "Plutarch's Lives" he prized above all other books Among Plutarch's heroes eminent for services rendered to his country Upon the models thus selected he fashioned himself And who is there that in these after days has become acquainted with his history but will acknowledge that he has surpassed or conducted and in character he subjects of his imitation?—While he was yet under age the movements of Aaron Burr in the West, seemed to threaten the integrity of the Union and he eagerly enrolled himself in a troop raised to oppose all treasonable designs The excitement upon this subject soon subsiding he returned to the labors of his farm and to his studies with a disposition however to serve his country in arms much stimulated by what he had seen of minor war

An elder brother dying soon after a lieutenant in the army, he was, through the influence of his relative, James Madison appointed to the vacancy by President Jefferson the 3d of May 1808 General Taylor no sooner entered the service of his country than he expected his first promotion His earliest achievement was hardly less than a miracle By his defence of Fort Harrison against odds that in any but our time and country would have been deemed romantic he saved a whole frontier from devastation and ruin From that early exploit, as have witnessed his devotion to his country—his arms have used their dearest action in the fated field He never hesitated to fight he never failed to win

Death of a Child.

No one feels the death of a child as a mother feels it Even the father cannot realize it thus There is a vacancy in his home, and a heaviness in his heart, there is a chain of association that comes round with its broken link, there are memories of endearment, a keen sense of loss, a weeping over crushed hopes, and pain of wounded affection. But he mother feels that one has been taken away who was still closer to her heart Here has been the office of constant ministration Every gradation of feature has developed before her eyes She has detected every new gleam of intelligence She has been the refuge of his fears, the supply of his wants And when he dies, a portion of her own life, as it were, dies How can she give it up, with all the memories of these associations? The timid hands that have so often taken hers in trust and love, how can she fold them on his breast, and give him up to the cold clasp of death? The feet whose wanderings she has watched so narrowly, how can she see them straightened to go down to the dark valley?—The head that she has pressed to her lips and bosom, that she has watched in burning sickness, and peaceful slumber, a hair of which she would not see harmed—Oh! how can she consign it to the chamber of the grave? The form that not one night has been beyond her vision or her knowledge how can she put it away for the long the long night of the sepulchre, to see it no more? Man has cares and toils that draw away his thoughts and employ them, she sits in loneliness, and all these memories, all these suggestions crowd upon her How can she bear all this? She could not, were it not that her faith is as her affection, and if the one is more deep and tender than in man, the other is more simple, and spontaneous, and takes confidently hold of the hand of God

Notice to Young Men.

A Class for instructing young men in operating the Magnetic Telegraph, will be opened in this city on the 5th of October A complete apparatus, being the whole that formerly belonged to an office, will be used in the school, and the instruction such as will enable all who enter to take charge of a station. The teacher has had the entire management of an office for more than two years on the New York, Boston and Lowell line, and flatters herself that she has become a competent teacher.

She will enter the names of those who desire on the Eastern or Western lines, and her reccommendation has been, and is still, taken on a pledge of qualification.

Those who would like a pleasant business with a good salary, while well to attend. Reference J. M. Hughes.

NOTICE.

THE AMERICAN AIR-TIGHT COOKING STOVE Pierce's Patent, manufactured by Johnson & Cox, Troy, N Y

The aforesaid Patent having been fully established by the judgment of the Circuit Court of the United States at Boston we hereby give notice that GARDNER CHILSON, of Boston, has the exclusive sale of said Stove for Massachusetts, Rhode Island, Maine and New Hampshire All infringements on said Patent will be promptly prosecuted JOHNSON & COX

Troy, N Y, July 1st, 1848

The American

Air-Tight Cooking Stove.

If this is not the best Stove in use, why so many attempts to infringe upon it? This suit was brought to sustain the Patent and to stop the infringements, and after a most thorough legal investigation, these rights were promptly decided, fully sustaining this Patent

More than Ten Thousand of these Stoves are now in use The testimony of this multitude, the past year, establishes the fact beyond a doubt that these are more good and useful qualities combined in this Stove than ever was, or probably ever will be found in any other Stove The fire-brick oven top is of great value in equalizing the heat around the oven absorbing the steam, causing the bread, &c to rise and bake light and quick—and giving bread, puddings &c that flavor peculiar to brick ovens The kitchen, for roasting is for a complete The cumbrous arrangement for broiling, frying, boiling, heating of irons, &c is admirable—The great economy of fuel, substantial construction and general good quality of this Stove is the cause of its universal admiration

For sale, wholesale and retail at the Store, Range and Hot-Air Ventilating Furnace Establishment, Nos 37 & 38 Blackstone Street, Boston

NOTICE.

WARMING AND VENTILATION, on correct and philosophical principles, as recently adopted by a unanimous vote of the School Committee of the city of Boston, as will be seen by their printed reports of 1847 and '48, which, after being thoroughly tested, in public and private buildings, has been generally adopted, in concurrence with the views of several other scientific committees, and all other gentlemen whose experience has enabled them to become conversant with this method of warming and ventilating dwellings churches, school houses, hospitals, factories, stores &c with an abundant supply of fresh healthful warm air The fuel not being allowed to be burnt in iron under any circumstances consequently the oxygen in the air is not destroyed by coming in contact with red hot iron furnace pots or plates

It has abundantly proved itself to be a complete and perfect system

The subscriber having had the practical knowledge and experience in the construction and erection of these improvements, from their commencement

Being the inventor of most of them, enables him to be correct in theory and practice

He will give his personal attention to the erection of his Brick Hot Air Ventilating Furnace—also his Portable Ventilating Furnace, Dr Clark's Boston School Stove, also arranging the Ventilating flues and Ventilators in all parts of the United States—by addressing him at the Store, Range and Hot Air Ventilating Furnace Establishment, Nos 37 and 38 Blackstone street where orders will be promptly executed GARDNER CHILSON

Dr. Townsend's

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

The Extract is put up in *Quart Bottles*—it is *six times cheaper* pleasanter and more than *superior to any sold.* It cures without vomiting, purging, sickening, or debilitating the Patient

The genuine and only superiority of this Sarsaparilla over all other medicines is, while it eradicates diseases it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES

ever known, it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine And in this lies the grand secret of its wonderful success —It has performed within the last few years, more than 1,000,000 cures of severe cases of disease, at least 15 000 were considered incurable It has saved the lives of more than 5 000 children during the two past seasons

10 000 *CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY*

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excesses indulgence of the passions or bad company, or general physical prostration of the nervous system, lassitude, want of action, faintly sensations, premature decay and decline hastening toward the fatal disease, Consumption, can be entirely restored by this pleasant remedy This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system, gives activity to the limbs, and strengthens the muscular system, in a more extraordinary degree

CONSUMPTION CURED

Cleanse and Regulate Consumption can be cured Bronchites, Consumption, Liver Complaint, Colds, Catarrh, Coughs Asthma, Spitting of Blood, Sore rear in the Chest, Hectic Flush Night Sweats, Difficult or profuse expectoration, Pain in the Side, &c, have been and can be cured

SPITTING BLOOD

New York, April 28, 1847

DR TOWNSEND—I really believe that your Sarsaparilla has been the means through Providence, of saving my life I have for several years had a bad cough, it lingered me worse and worse At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced and did not expect to live I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me I am now able to walk all over the city I raise no blood, and my cough has left me You can well imagine that I am thankful for these results

Your obedient servant,

WM RUSSELL, 65 Catherine st

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell's Island, Sept. 14, 1847

Dr. Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat, sleep or walk I had the most distressing pains, and my limbs were terribly swollen I used a good deal of your Sarsaparilla, and I think they have done me more than one thousand dollars worth of good I am so much better—indeed, I am out rely relieved You are at liberty to use this for the benefit of the afflicted JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend out having tested the Sarsaparilla in cases of Fits, of course never so amended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Peekskill, Putnam, August 19 1847

Dr. Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits we tried almost every thing to her in without success, at last, although we could find no recommendation in your Sarsaparilla for cases like hers, we thought as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to my great pleasure And surprise She is fast becoming rugged and hearty, for which we feel grateful Yours, respectfully

JOHN BUTLER, Jr.

FEMALE MED CINE

Dr Townsend s Sarsaparilla is a sovereign and speedy cure for Incipient Consumption Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles Leucorrhœa or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge there of and forth general prostration of the system—no matter what the result of inherent cause or causes produced by indiscretion, illness, or accident Nothing can be more surprising than its supporting effects on the human frame. Persons all broken up and miserable, from sexual debility, at once become robust and full of energy under its influence Immediately consult me at the nearest one of the female rooms which is the first at sense of Barrenness—It would fill the space of a whole sheet of this delicate matter to recount the many cases of this kind, but we assure the afflicted that hundreds of cases have been restored to us Thousands of cases of worn families have been with astonishing few bottles of his invaluable medicine and have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

The extract of Sarsaparilla in medicine expressly prepared in reference to female complaints No female who has reason to suppose herself pregnant should take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time and at no The person may be *cured for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and new gaining the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body—not as fashionable drugs do, a general physical prostration of the nervous system, lassitude, want of action, faintly sensations, premature decay and decline hastening toward the fatal disease, Consumption, can be entirely restored by this pleasant remedy This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system, gives activity to the limbs, and strengthens the muscular system, in a more extraordinary degree

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attending upon parturition ever discovered It strengthens both the mother and child, prevents pain and danger, increases and enriches the food—those who have used it think it is an indispensable It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Colic Spasms Cramp, Swelling of the Feet, Dropsy, Heartburn, Vomiting, Pain in the Back and Loins Pales Pains, Hemorrhoids, Pain in regulating the secretions and equalizing the circulation, it has no equal. The great peculiarity of this medicine is, it is always safe and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Manna is needed Exercise in the open air and light food with this medicine, will always secure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, are applied to the face, very often spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, constitutes its own production as the "human face divine," As well as the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the veins, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flushes of loveliness that all admire but none can describe. This beauty is the offspring of nature—not of powder or paint If there is not a fire and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thin, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, at times a rich bloom to the cheeks, and a brilliancy in their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexion, they should use Dr. Townsend's Sarsaparilla. Thousands who have tried it, are more than gratified, are delighted. Ladies of every station crowd our offices daily.

NOTICE TO THE LADIES!

Those that believe Dr. Townsend's Sarsaparilla have invariably called their next *a great remedy for females*, for it is, and have applied for it in such extraordinary haste as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to my great pleasure And surprise She is fast becoming rugged and hearty, for which we feel grateful Yours, respectfully

CONSUMPTION CURED WITH KELLEY & CO'S SARSAPARILLA.

A PHYSICIAN, who is truly he most distinguished of any in large City in professional skill CERTIFIES stonishing as it may seem, that he actually CURED a case of **Consumption** with Kelley & Co's Sarsaparilla, and says that there is no medicine in which he has so much confidence for **Diseases of the Lungs.**" Some will hear of the REMARKABLE Cure but hundreds are knowing to the fact This INESTIMABLE Sarsaparilla is also doing wonders in foreign cities And says

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England, "that there is no other medicine which is CAPABLE of doing so MUCH GOOD and yet so INCAPABLE of doing injury What distinguished compliments are these? Never was there a medicine honored with STRONGER RECOMMENDATIONS It CURES when ever, thing else fails the

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are dressed and the DARK OF DEATH seems ready to strike the sufferer And the reason for this is, that it makes the BLOOD perfectly Pure Rich Healthy Quick Free Nutritious It CLEARS all the SKIN of SCROFULA DYSPEPSIA and JAUNDICE where the Liver is Swollen and Painful Strength wasting Appetite gone Pulse weak be Feverish Skin yellow Nerves deranged Head sore Health, Strength and Vigor to every digestive function of the System—causing them to move on just as Nature requires And for Its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public justly style it, the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas is, that it does not tamper with the patient, or prolong his sufferings But it first attacks the disease and stops it then removes it, then brings up the flesh and strength on a perfectly pure Blood, so that the cure is always thorough and permanent Other Sarsaparillas after being used for *several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and new gaining the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

March 4 1846

Dr William Wright—Dear Sir—I am one of the many whose aversion to quack nostrums has deprived them of the benefits resulting from the use of good medicines Acting under this influence I have seldom resorted to the Pill box Last March when you commenced advertising in my paper, I was induced to give your Indian Vegetable Pills a trial and after having fairly tested their merits for myself and family, gave them a decided preference over every other proprietary medicine

In every instance, when afflicted with sick headache, or when the stream of life was encumbered with morbid humors I found speedy relief from the use of your Pills By taking from four to six on going to bed when indisposed, I have always been restored to health without loss of time and without the expense of a physician Weight a Indian Vegetable Pills possess the distinguished merit of superseding effectually, without disturbing the rest of the patient and in my case without producing even sickness at the stomach

Respectfully your friend, &c

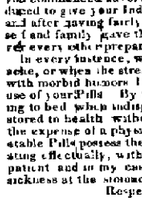
M'Alister's All-Healing Ointment.



WHEN this Ointment is warm upon the fire and warmed into the feet, it not only acts up on the organs of the chest, but the whole nervous system feels a fluence It moves along the nerves and blood and stirs up to the liver lungs stomach and brain in parting renewed activity and energy to these organs while it separates and sets free every impurity or humor that may be lodged there and expels it to the surface Hence the extraordinary rapidity and certainty with which it cures asthma, coughs and every complaint Also headache, ague consumption and spinal diseases

Its first action is to open the pores of the flesh impart tone and nervous energy to the skin, and then penetrate to any part of the internal viscera, and expel diseased and impure particles from the system It performs precisely the office of nature performs for itself in health having the full use of every function of the body

It is this power which enabled the ointment to sweep off all cutaneous eruptions skin diseases of every nature, also to subdue all inflamations, fevers and all bowel complaints—in short by keeping the pores of the skin open and restoring health and perfect energy to all the organs of the body
